[www.ampro.com](http://www.ampro.com)**Mini-ITX**

Ampro's MightyBoard™ single board computers are full-featured Mini-ITX boards that address different applications such as those that are already based around an ATX-style enclosure. They are also an effective solution for applications that utilize either off-the-shelf or custom PCI or PCI Express™ bus expansion cards to add application-specific I/O to the system.

**MightyBoard 800** is for high volume embedded applications that require standard PCI bus expansion and high CPU performance without a fan. **MightyBoard 821** is for those applications requiring ultra-high performance networking and/or graphics in an industry standard form factor. **MightySystems** are complete turnkey solutions with a choice of MightyBoard with one slim media and one slim HDD (2.5").

**FEATURES**

- › A choice of 2.0 GHz Pentium M Socket 760, 1.5 GHz Celeron M Socket 478 (MightyBoard 821), or 1.4 GHz LV Pentium
- › CPUs found primarily in high-end notebook PCs but with longer lifecycle
- › Most effective solution for applications utilizing either off-the-shelf or custom PCI bus expansion cards
- › Turnkey solutions with a choice of either MightyBoard 800 or 821 Pentium M/Celeron M processor
- › Excellent OS support, 0 °C to +60 °C operating temperature
- › Visit [www.ampro.com](http://www.ampro.com) for more information or call 408-360-0200
